### NOTES

Uptown Glass Mosaic 1 x 1 Pearl series is a molten glass mosaic. Exotic and Metro series also contain some Molten Glass. Molten glass characteristics include irregular edges and some variation in size. These characteristics are inherent in standard production. These subtle size and shape variations impact the final grout joint appearance and enhance the natural visual of this series.

Not for use on ramps. Water, oil, grease, improper drainage and certain footwear can create slippery conditions. Floor applications expected to be exposed to these conditions require extra caution in product selection.

For additional information refer to "Factors to Consider" at: [daltile.com/Factors](http://daltile.com/Factors).

Random visuals enhance the natural beauty of this product. To achieve optimal results, all tile should be selected from multiple cartons and shading and graphic arrangement planned prior to installation.

Since there are variations in all glass products, tile and trim supplied for your particular installation may not match samples. Final confirmation should be made from actual tiles and trim prior to installation. Manufactured in accordance with ANSI A137.2 standards. Use of a white latex modified thin-set is recommended for installation.
